SUMMARY

Full Stack Web Developer with a bachelor's degree in bioengineering, leveraging technical and problem solving skills to create a clean and smooth interface. Recently earned a certificate in full stack development from University of North Carolina of Chapel Hill, acquiring skills in JavaScript, CSS, React.js, and multiple backend server databases. Self-motivated fast learner who strives to improve skills with each project.

TECHNICAL SKILLS

- **Languages:** JavaScript, HTML, CSS, Node.js, React.js
- **Frameworks**: jQuery, Express.js, Bootstrap, Tailwind
- **Databases:** mySQL, MongoDB (Mongoose, graphQL)
- **Systems:** Windows, Linux, Mac OS
- **Software:** GitHub, GitBash, Visual Studio, Chrome DevTools, MySQL Workbench, Robo3T, HeroKu, MongoDB Cloud

PROJECTS

Astronomical Guidance |
Github: *https://github.com/jparris3213/UNC_Project_1_Group* |
Deployed URL: *https://jparris3213.github.io/UNC_Project_1_Group/* |
- Application designed to help astrophotographers, avid skywatchers, and even space agencies look to the skies on specific days for both asteroids and even the ISS! The webpage uses the zip code entered and finds the latitude and longitude and displays information on when the next closest asteroids will be passing.
- Was responsible for retrieving data from the NASA api, weather api for zip code info to gather latitude and longitude, and making sure data retrieved was saved to the local storage
- Used API calls, jQuery, DOM methods, bootstrap framework, and local storage

Ripost Forum |
Github: *https://github.com/PhilipBrowning/project2-team-one* |
Deployed URL: *https://ripost-forum.herokuapp.com/* |
- A webpage that is a posting service that users can post new threads and other users can comment on. In order for a user to post or comment they must be logged in, which means they will have to create a username and password with a unique email.
- Was responsible for the backend server development using mySQL, and creating routes using RESTful best practices.
- Used express.js, node.js, mySQL12, Sequelize, express-session, bcrypt, express-handlebars, JawsDB for our database, and Heroku for deployment

Narrative Treasures |
GitHub: *https://github.com/ajlineb/Narrative_Treasures* **|**
Deployed URL: *https://narrative-treasures.onrender.com* **|**

- This is an application for Dungeon and Dragons players so that they may keep better track of each player's gold, items in markets, and price fluctuations that can be changed by the dungeon master.
- Was responsible for making the backend database tables, the schemas, and models for the user profile, Dungeon master's custom market items, and creation of new items. Also linked the backend to the frontend.
- Used React, express.js, graphql, apolloServer, mongoose, mongoDB, node.js, bootstrap, JWT or jsonWebTokens, and bcrypt.

EXPERIENCE

Wal-Mart   2020 - Present

Digital Online Sales Team Lead   SilerCity, NC

Leader of a fourteen employee team, managing operations of incoming orders, ensuring orders are picked on time, investigating issues with onhand merchandise, ensuring customer orders are delivered in under three minutes of arrival. Critical thinking in a fast paced environment, expert communication with my team and higher management, humble customer service and prodigious time management skills. First manager of this area and kickstarted this Wal-Mart's Online Grocery Pickup (Highest rating in the market district by our customers 4.83 stars out of 5)

Toy Department Manager   2019 - 2020

Managed a 3-person team. Ensured that items were stocked, onhand of merchandise was accurate, kept price changes correct and directed my team for success. Critical thinking, developing plans for future seasonal items (Christmas, Summer) and leadership of the team. Lowest shrink (loss of inventory) in the entire store 2020.

Electronics Sales Associate   2018 - 2019

Associate of the electronics department, employed great customer service, and informed customers on electronic devices such as laptops, desktops, phones, TVs, cameras and games.

Lawn & Garden Assembler Associate   2017- 2018

Associate of the Lawn & Garden department, handled POS transactions, stocking, assembling grills, furniture, and bikes for customers and management.
